

GRAN MAT Instruction Manual

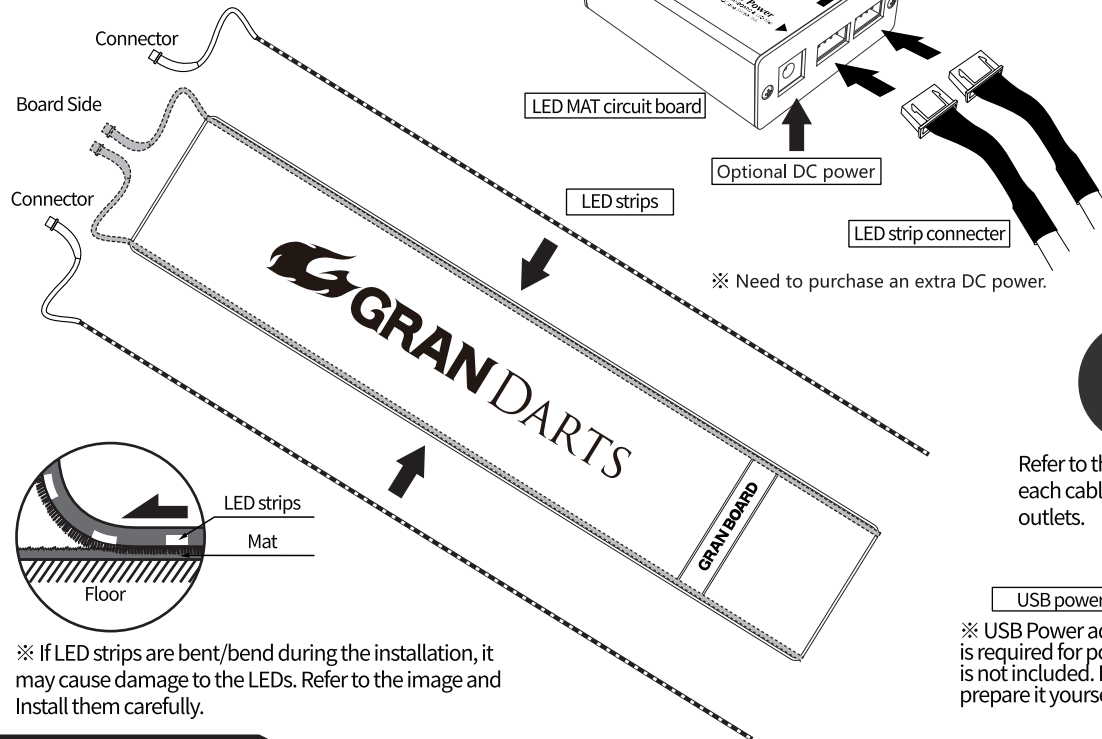

How To Install

STEP 1

Unroll the mat on a flat surface. Install LED strips on both side of GRAN MAT by taping velcro on the mat. Make sure the connector goes on the board side.

STEP 2

Attach the connector of LED strips into [LED Mat] outlet.

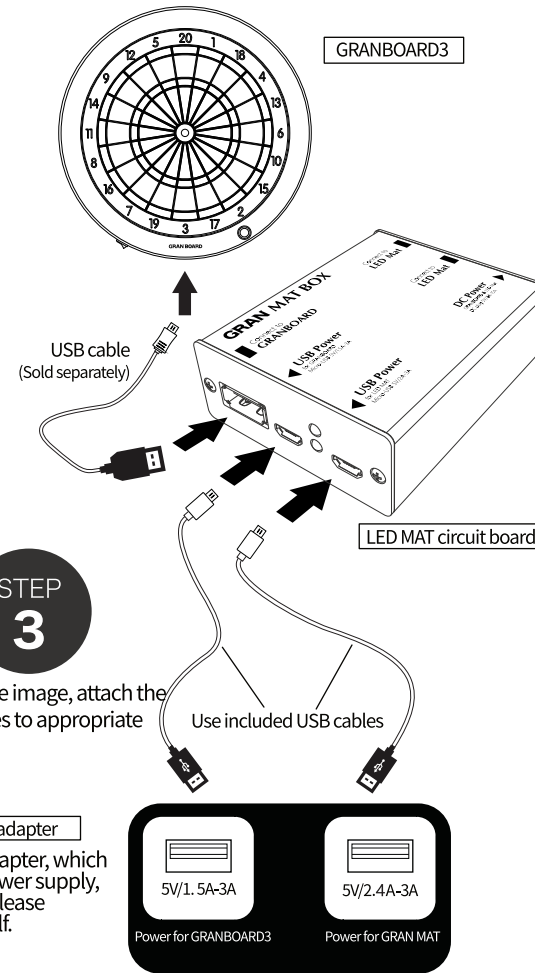

STEP 3

Refer to the image, attach the each cables to appropriate outlets.

USB power adapter

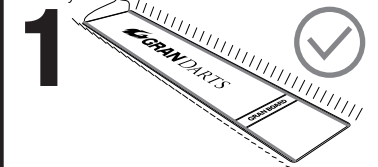

※ USB Power adapter, which is required for power supply, is not included. Please prepare it yourself.

Caution

Only the initial defects are covered by warranty for the LED strips.

Make sure to check if the LED lights flash properly after installing. If there are any initial defects on the LED strips, please contact us within one week from the purchase date. Please note that any breakage after use will not be covered by warranty.

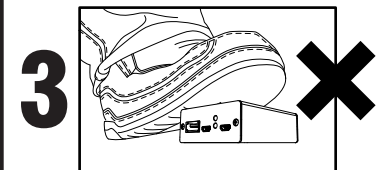

Do not step on LED strips!

Stepping on the LEDs with a hard shoe sole, or putting sharp-tipped or heavy objects may damage the LED strips. Do not fold the mat or roll the mat tightly. It may cause of LED strips to be broken.

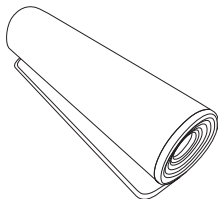

Do not step on circuit board box!

LED mat circuit board box is made of aluminum alloy. It may break if you step on the box, or put heavy objects on the box. Please be careful.
