

Go Advance GRANBOARD3s

World
share No.1

GRANBOARD is an electronic darts board linked to the world's first app born in Japan. Currently played in 65 countries around the world and has an overwhelming global market share and number of users. GRAN BOARD is a world standard home board that Japan is proud of.

"The Best quality home use dart board" has evolved into the next stage.

GRANBOARD 3s, which has been improved, will be released without changing the existing functions.

【The points of evolution are the three "s"】

1. The [silence] has evolved

Silence is always required for home use dart boards. Improved shock absorbers and structure help to achieve the number one silence as an electronic dart board.

2. [Sensor] reliability has evolved

Prevents false reactions by improving the sensor sheet material. In addition, by registering the outboard with two sensors, it prevents the false reaction and supports a smooth game by registering the out reliably.

3. [Segment] quality has evolved

New molds have been created to improve segment and spider quality. Not only the comfort dart sticking but also the durability.

- The latest GRANBOARD pro-model with LED features.
- The LED interlinked with app and has various scenarios such as hit, award video, etc.
- “LED GRAN MAT” and “HUE” by Phillips (both sold separately) allow you to create an attractive dynamic darts environment at home.
- Online match “GRAN ONLINE PLAY” is available.
- Superb noise reduction design.
- Built-in outer sensor with adjustable sensitivity (via GRANBOARD app).
- Energy efficient design with Bluetooth 4.0 (runs 3-6 months with 2 AA batteries).
- Most parts are replaceable (sold separately).
- Stylish round form body made of solid ABS material.
- Compatible with the plastic bracket (sold separately).

Product Dimensions: H 22.2in x W 22.2in x D 1.6in, Weight 6.6lbs

Package Dimensions: 23.6in x 23.6in x 2.6in

Carton Dimensions(5 boards): 24.4in x 24.2in x 13.3in, 44lbs

* To use the LED function, a micro USB adapter that can supply power of 1.5 amperes or more (recommended 2.4 amperes) is required. (Not included with this product.)

The points of evolution are the three “s”

GRANBOARD 3s, which has been improved, will be released without changing the existing functions.

Spider&NumberRing

The outer area is made thicker, making it easier to stick and improve strength.

sponge

Uses high-density sponge for improved noise reduction.

■point2 / Segment

By starting from rebuilding the mold to improve segment and spider quality, ease of sticking and bit durability have been improved. The mirror finish on the side of the segment allows for smooth movement and minimizes stacking.

■point3 / Silent

Adopts a new shock absorbing silent mat. Also, by improving the basic structure and each part, the quietness of home electronic dart board No.1 is realized.

■point1 / Sensor

Outboard is judged by two sensors. Supports smooth game progress by preventing false reactions and reliably determining outs.
